

Square will measure at 1" when printed at 100% scale.

@happy_zombie Mask Pattern terms of use:

Make for family, friends, and community as gifts. If you've been financially impacted and are suffering a financial hardship due to COVID-19 - please feel free to sell your masks to earn some much needed income.

If your finances have not been impacted by COVID-19, please consider selling your masks and donating your sales to your local foodbank if people insist on paying you.

UGH, I hate that I have to include this:

Please visit [cdc.gov](https://www.cdc.gov) for homemade mask guidelines. All rights reserved ©2020 Monica Solorio-Snow This is a free pattern for personal and charitable use and is available at [instagram/happy_zombie](https://www.instagram.com/happy_zombie). This pattern is not intended for wholesale or retail sales.

MASK (Height x Width)

- CUT 1) 7½" x 10½" quilters cotton fabric
- CUT 1) 7½" x 10½" quilters cotton or cotton flanel

Optional:

- CUT 1) 7½" x 10½" interior "filter" fabric layer

EAR STRAPS

- CUT 4) 7" x ¾" t-shirt *yarn*/knit fabric (craftpassion.com/recycle-tutorial-making-of-t-shirt-yarn)

All seams ¼"

RST = Right Sides Together (the "pretty" sides)

Step 1

Fold fabric on width, RST. Place the pattern lined up on the fold. Cut on the top, unfolded side, and bottom. Repeat for liner piece (and interior "filter" fabric layer if using).

Step 2

Stitch closed each of the nose and chin darts on each layer of fabric.

Step 3

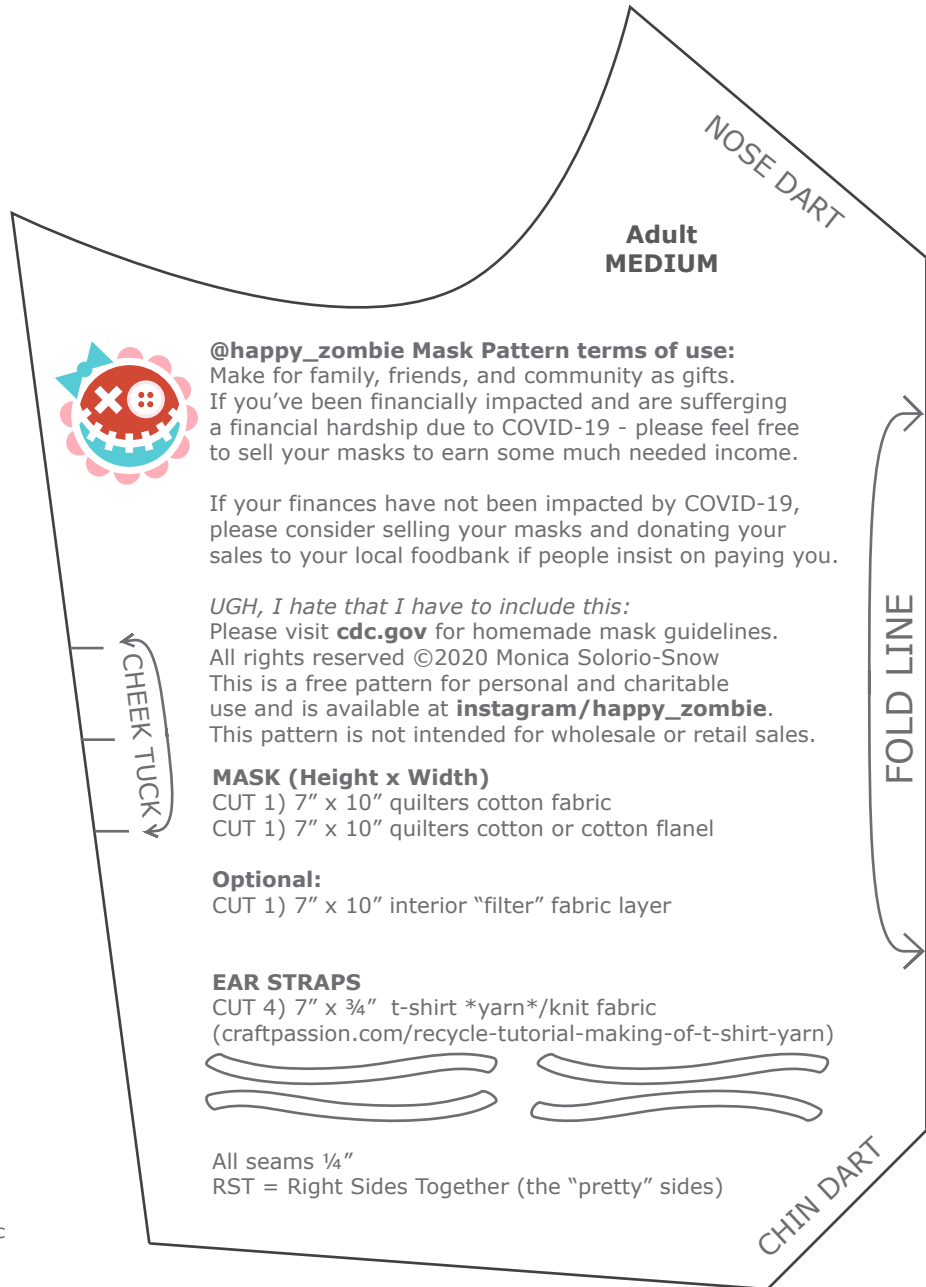

Layer the mask and liner RST (and interior fabric if using), sandwiching the ear straps between the layers. Pin in place and stitch around mask leaving an opening for turning.

Step 4

Turn inside out, press. Make optional cheek tucks and pin in place. Top-stitch around entire mask's edge to finish the mask. The top-stitching will close the turning opening as well as complete the cheek tucks. Knot ear strap ends on each side of the mask at desired length to make ear-loops.

Square will measure at 1" when printed at 100% scale.
