

Strawberry Delight Needlebook

by Monica Solorio-Snow

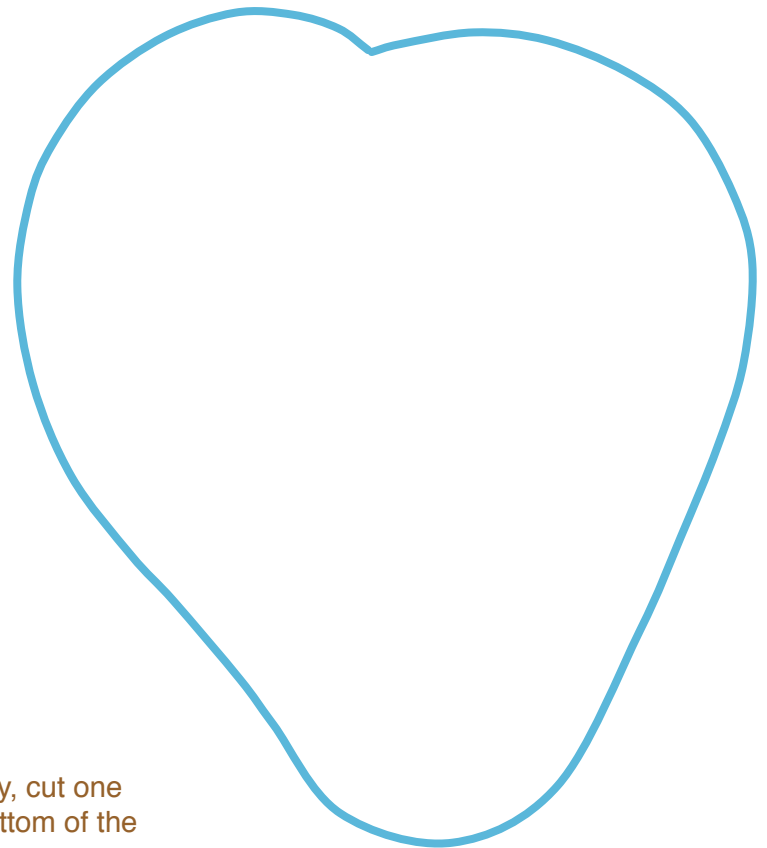

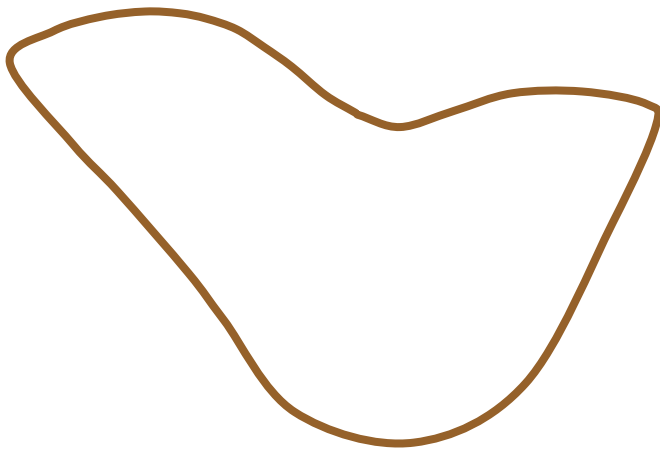

[1] Using the solid green lines as your guide, cut one felt leaf top. Join felt leaf to top strawberry felt with a blanket stitch, leaving top open where red and green felt edges will meet. Blanket stitch on the dashed lines to make multiple leaves appear.

[2] Cut two felt red strawberries for front and back. Embroider around each piece using a blanket stitch with two strands of floss.

[3] Cut two slightly smaller white felt strawberries for interior pages. Embroider around each piece using a blanket stitch with two strands of floss.

[4] Embellish top strawberry felt with French Knots for seeds.

[5] Join all five pieces together at the top of the leaf unit using a blanket stitch. Done.

For a chocolate or white chocolate dipped strawberry, cut one brown or white felt piece and blanket stitch to the bottom of the top red felt.
